**RP18D etching press
format direct drive**

A2

Bench or cabinet mount – printmaker's choice

This printmaking workhorse is configured for A2 format and is able to print intaglio processes. Presses of this configuration are made by all the long established makers. The presses are robust, with direct drive and professional wheels. Bedplates of composite materials are effective, long lasting and safer than steel. An economical formply stand is available.

The enjoy RP18D offers:

- Solid engineering design; zero maintenance requirement
- Exceptional value for money
- 5 year warranty.

Technical:

- Robust and rigid laser cut frame
- Upper roller 114 mm diameter
- Lower roller 88mm diameter
- Bedplate size 460mm x 850mm
- Handwheel 890mm diameter
- Optional felts kit comprises 1 x A and 2 x B grade 3.2mm
- Optional and economical formply stand or
- Optional steel cabinet [as per enjoy s18 press]

For relief printing, bearers are placed at the bedplate edges to increase drive. The space above the roller is completely clear to allow felts to flip over easily.

The safety features:

- No hidden finger trapping points
- Bakelite bedplate is light and supported without finger nipping wheels
- Bed stops and anti-lift pins prevent bedplate accidentally exiting the press
- Fully enclosed covers at sides and lower roller exclude fingers

Transport is easy:

- The RP18D is so compact and light it easily fits into most cars
- Main lift 35kg, bedplate 4kg, handwheel 6kg
- We deliver the press by Pack & Send to any of the P&S depots. You can pick it up there or have it delivered by P&S to your door
- Assembly is easy, following the clear instructions in the manual.

Optional:

- felts kit
- economical formply stand
- steel cabinet
- lockable castors
